This Book is brought to you for free and open access by the Quality Expo at Henry Ford Health Scholarly Commons. It has been accepted for inclusion in Quality Expo 2024 by an authorized administrator of Henry Ford Health Scholarly Commons.

AIM

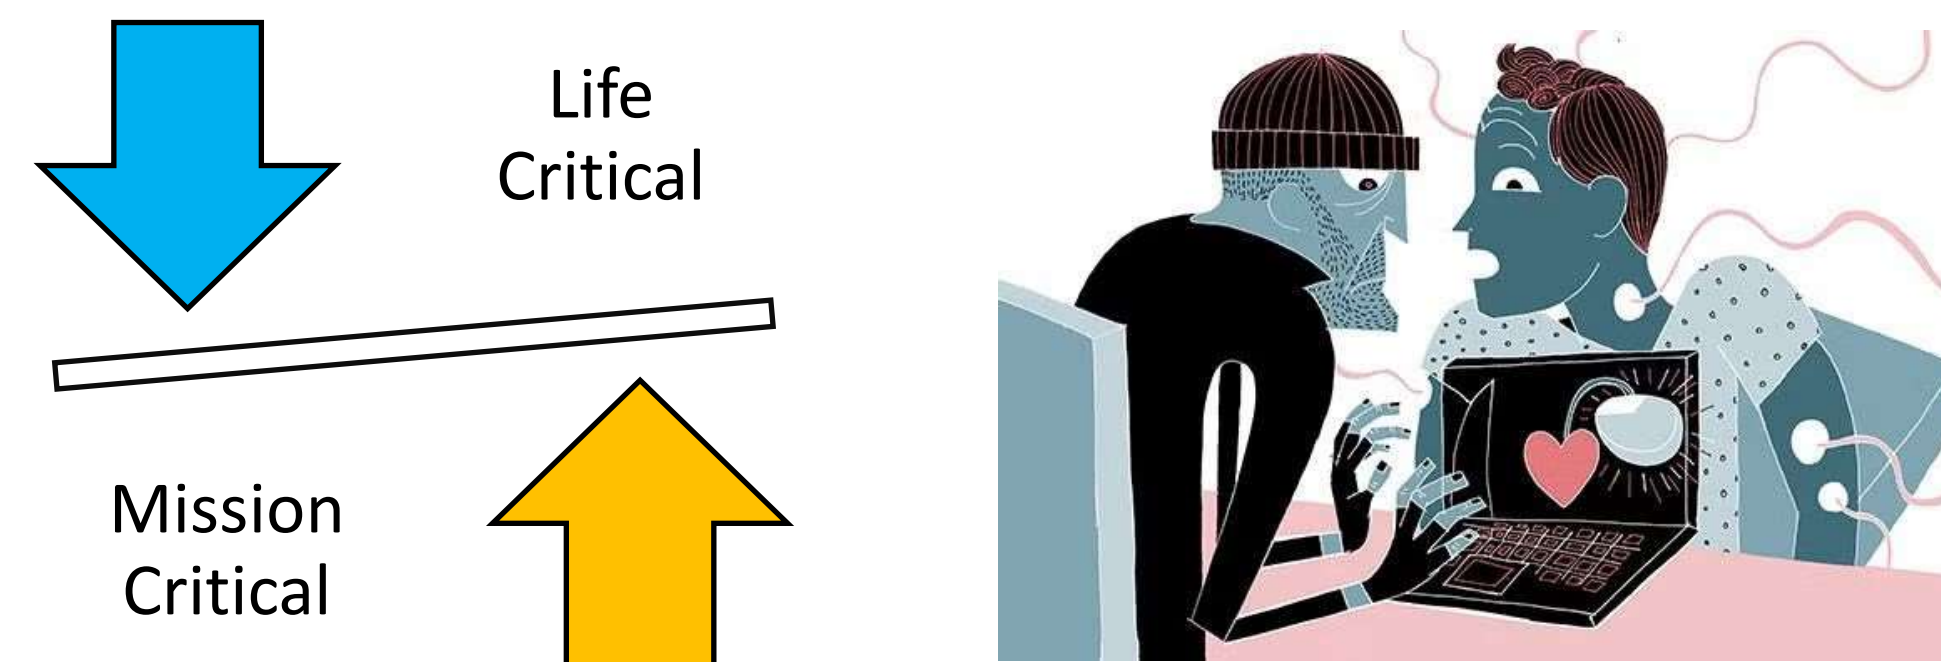

- Establish effective governance over medical device cybersecurity and lifecycle management.
- Identify and manage vulnerable medical devices.
- Manage medical device security risks including establishing an iterative process aligned with PDCA cycle of performing security risk assessment, risk mitigation and monitoring.
- Identify and respond to medical device security incidents in a manner that minimizes adverse impact, restores operations and prevents reoccurrence.
- Implement a training and awareness program to educate HFH employees and vendors about medical device security.

Plan

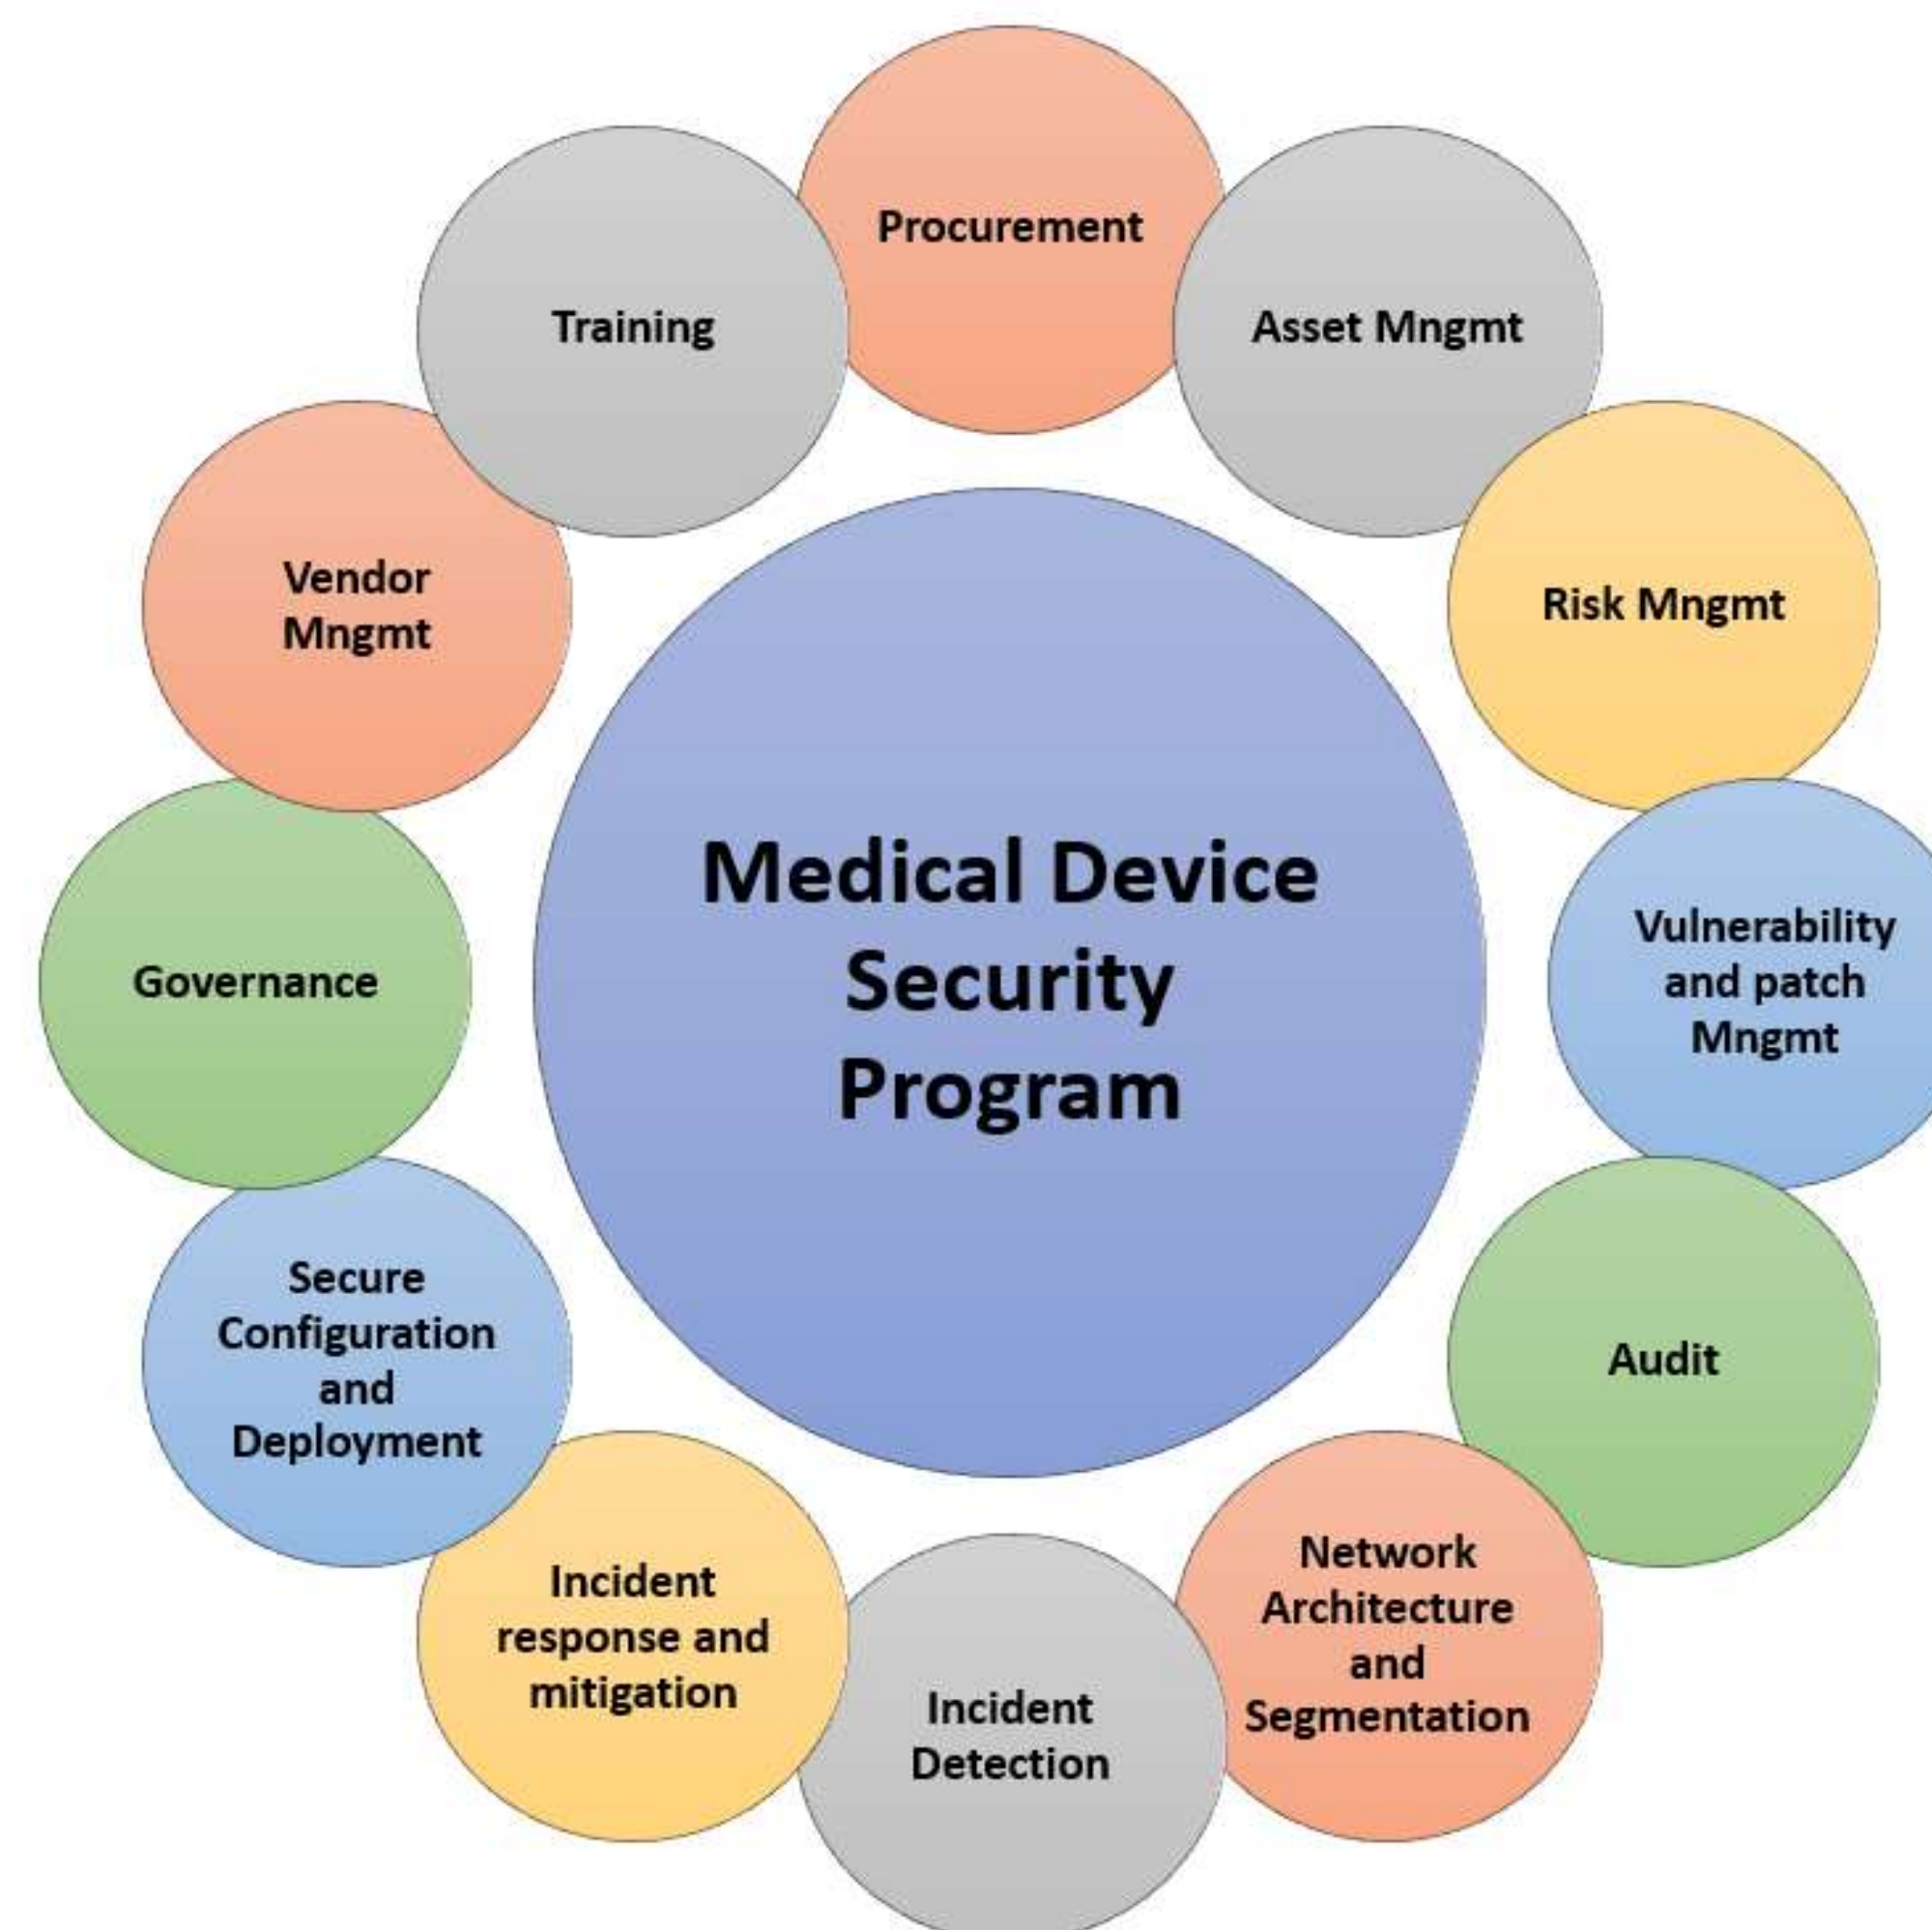

- Conduct an RFP and deploy medical device security management tool.
- Stand up a medical device security services (MDSS) program.
- Establish a mature governance structure and operationalize MDSS.
- Implement and enforce custom device security policies.

Security Risks

- **Patient Safety:** Intended or unintended changes in device performance.
- **Care Delivery:** Downtime or delay in the delivery of care due to lack of useable equipment.
- **Privacy:** Loss of PHI, PII, credentials. Data breach or loss of intellectual property.
- **Cybersecurity:** Using a device as an entry point to the network.
- **Financial Risk:** Lawsuits, negative impact on reputation.

Program Construct

The Medical Device Security Tool

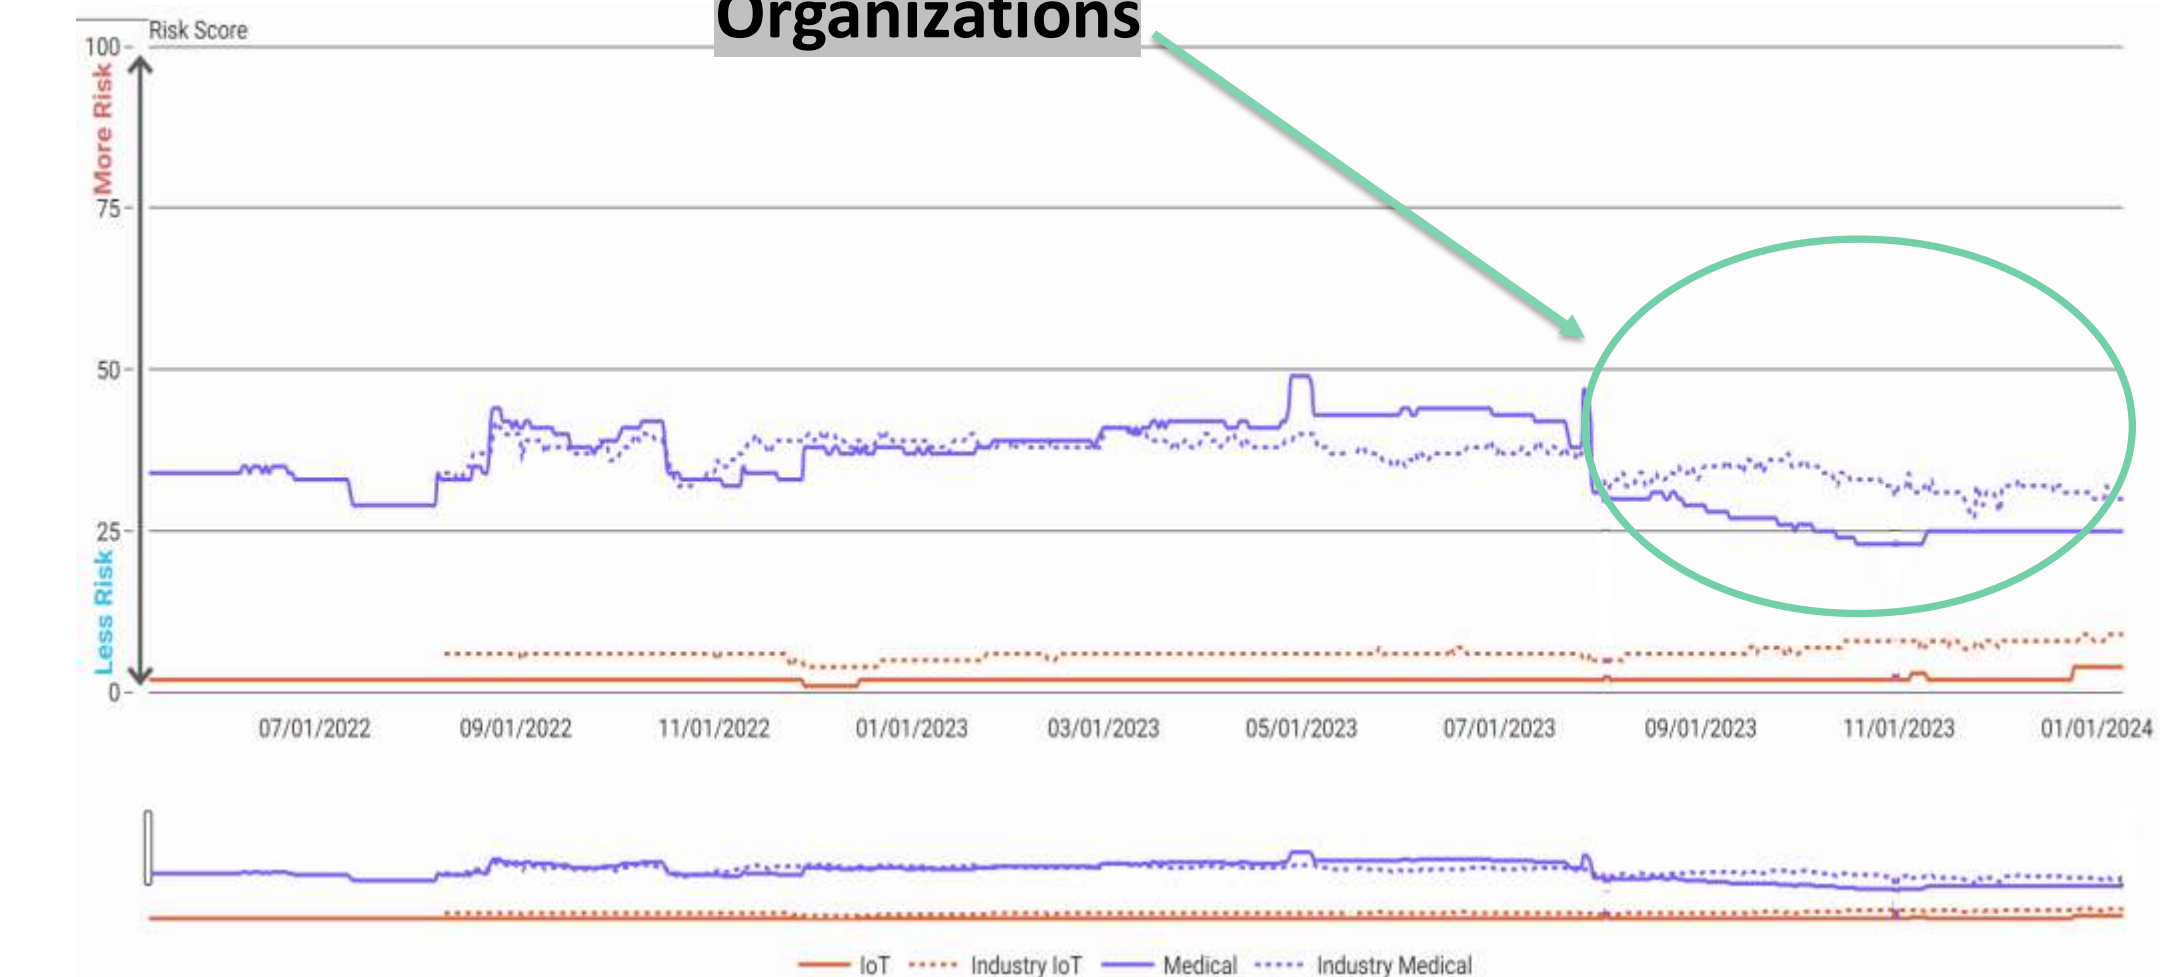

- Contextualize device criticality, behaviors, and relationships
- Identify anomalous device behavior
- Identify medical devices with exploitable vulnerabilities
- Deliver actionable plans for risk remediation

Measures and Trends

- Device visibility grew from an unknown number of confirmed connected medical devices in January 2022 to 14,857 devices in January 2024 and it continues to grow.
- Since we started tracking medical device risk, HFH scores have been compared to those of other healthcare organizations.
- Starting in Q3 '23, our medical device risk has trended below others.

HFH Medical Device Risk vs Other Healthcare Organizations
